Information Technology

The OCME Information Technology Internship is designed to equip students of technology and information systems with the competencies necessary to embark upon a career in IT. Each intern will be coached in their endeavor, actively assisted in selecting an Information Systems specialty (network infrastructure, helpdesk management, applications development) under the direct guidance of the Chief Information Officer of the OCME. They will be encouraged to pursue certifications with prominent industry vendors such as Microsoft, Cisco, and CompTIA. As a development exercise, all interns will be tasked with assisting in desktop deployments and computer imaging, server monitoring, and peripheral management. The intern is expected to be available for 16 hours per week (two business days) between the hours of 8 am and 5 pm for a duration of up to three calendar months. Candidates above the age of 18 and currently enrolled in an undergraduate or industry standard certification program are eligible to apply.
